We received additional questions to the above-mentioned tender procedure and here are answers

Question 1

In the excel file "Annex 4 price table_CNC" in column C2 is filled the amount in there, Why ?

Answer 1

This is a mistake, a working version was published, the field should be empty as a sample and the amount should be filled in by the supplier.

Due to the nature of information, the contracting authority decided not to extend the deadline for submitting bid.

Thank you,

.....
